Bernardsville, New Jersey – February 27, 2017. Preschool Advantage is delighted to announce new partnerships with two preschool programs located in Bernardsville. The Palmer School and the School of St. Elizabeth join St. John's Nursery in working with Preschool Advantage to provide access to a high quality preschool education for families who could not otherwise afford preschool for their children.

In late 2016, Preschool Advantage added the Bernardsville area to the communities it serves and continued to look for quality schools in the area. The Preschool Advantage School Committee visited The Palmer School and the School of St. Elizabeth and was impressed with the quality preschool education at the schools. Preschool Advantage selects partner schools based on five points of quality in preschool education: teacher and child interaction, curriculum, family involvement, staff qualifications and professional development, and management of the school.

The Preschool Advantage School Committee is comprised of numerous current and former preschool directors and teachers who care deeply about early childhood education. Members volunteer to visit the Preschool Advantage partner schools on a three-year cycle to ensure quality is maintained. A checklist has been developed using National Association of the Education of Young Children guidelines, the Grow NJ Kids program and the considerable experience of the Preschool Advantage committee.
